SQUEEZE

The billowy shape of Squeeze from Orrefors looks different from different angles, depending on its placement. After the vase is blown, and while still hot, it is “squeezed” together by hand in two places. These “squeezes” form a cross inside the vase, which holds the flowers in place, making the vase well-suited for a variety of bouquets. Designed by Lena Bergström.

ABOUT BAOBAB

WHEN LUXURY HOME FRAGRANCE MEETS CREATIVE DESIGN

Baobab is at the forefront of the creation of olfactory and aesthetic objects. Drawing its inspiration from African lands, the Belgian brand's interior perfumes have been established as decorative objects since 2002.

A pioneer in the creation of large multi-wick candles, Baobab Collection continues to expand its range, always seeking to create refined objects with sophisticated fragrances that are thought of as skin scents.

Their mineral wax comes from Germany, glass from Poland and scents are created and perfected in Grasse. All of their candles are hand-poured into glass that is hand-blown by master craftsmen, making each one completely unique.

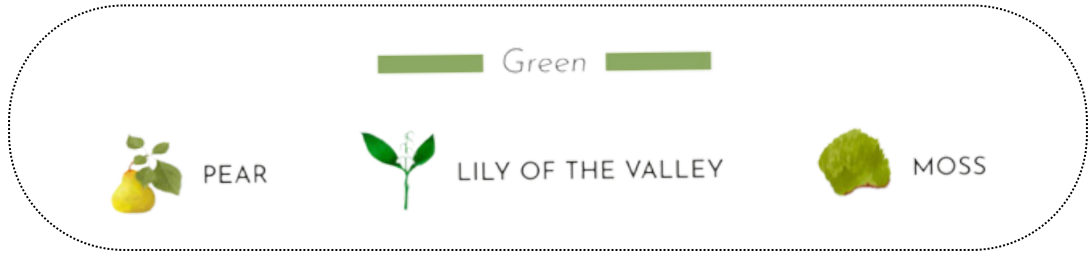

From its flagship store in Brussels to the most prestigious department stores, the brand can be found in more than five hundred locations worldwide. Baobab Collection decorates and embalms gorgeous interiors with the wisdom and spirit of a great traveller.
